ENCLOSURES (NO. & TYPE)

REMARKS [redacted]

25X1Y SOURCE [redacted]

25X1X [redacted]

- On 20 May 1953, a train with 34 T-44 tanks and 6 SU 249 guns en route from Frankfurt/Oder to Kirchmoeser was observed at Cottbus railroad station.
- The following shipments were observed at Frankfurt/Oder railroad station:

Date in May	Load	From or Via	To
17	15 prime movers	from Frankfurt/Oder	Lieberose
21	16 tanks	via "	"
22	40 rocket launchers 7 prime movers	" "	direction of Cottbus 3
27	40 rocket launchers	" "	"
28	28 " " "	" "	"

- On 22 May, a westbound train of 40 flatcars with rocket launchers was observed at Cottbus railroad station. 3
- On 27 May, 10 flatcars with 10 trucks en route from Frankfurt/Oder to Alten-grabow and, on 28 May, 24 flatcars with 29 M-13 rocket launchers en route from Frankfurt/Oder to Luckenwalde were observed at Frankfurt/Oder railroad station. 4
- On 31 May, a train of about 30 cars with rocket launchers, probably of model M-13, was observed at Frankfurt/Oder railroad station. The slide railings were about 5 meters long and projected beyond the driver's cabin. 5

-2-

25X1A

- 25X1A 2. [redacted] Comment. The shipment probably did not cross the border en route from the East but carried a tank unit, possibly from Fuerstenwalde, to the Lieg [redacted] 25X1 troop training grounds via Frankfurt/Oder.
3. [redacted]
- 25X1A 4. [redacted] Comment. The two shipments are probably identical. Another source [redacted] reported the shipment with Luckenwalde as receiving station but indicated the rocket launchers as being of model M-31. As a Soviet rocket launcher regiment is stationed at Luckenwalde and Soviet units are equipped with the modern M-31 type rocket launchers, it is believed that the shipment consisted of M-31 rocket launchers.
- 25X1A 5. [redacted] Comment. If the shipment actually consisted of model M-31 rocket launchers it may have been consigned to the KVP. As no receiving station is listed, no definite conclusion can be drawn.
